

Flood Relief Brief

Dhemaji, Lakhimpur & Majuli districts, Assam | Prepared 08 August 2026 | Based on satellite flood observations

49 villages are cut off by the flood. About **106,850 people** cannot reach a hospital within an hour because the roads to them are underwater.

49
villages cut off

36.3%
people without hospital access

213
bridges under water

49
boat launch points found

Reach these villages first

These are the most urgent — the largest number of trapped people with no easy way out.

#	Village	District	People	Nearest hospital
1	Joriguri	Dhemaji	450	cannot reach
2	Phukangaon	Dhemaji	450	cannot reach
3	Dhekiani Bam	Dhemaji	150	cannot reach
4	Bordoloni	Dhemaji	4,100	cannot reach
5	Kali Ghat	Lakhimpur	250	cannot reach
6	Jonai	Dhemaji	15,420	cannot reach
7	Gogamukh	Dhemaji	12,750	cannot reach
7	Dhakuakhana	Lakhimpur	12,800	cannot reach

Where to send the boats

Sending teams to just these **8 launch points** would reach about **99,150 of the trapped people** — the most efficient way to cover the most lives fast.

Send to	Near	District	People reached	Villages
Team 1	Kamalabari	Majuli	28,030	8
Team 2	Jonai	Dhemaji	16,320	3
Team 3	Gogamukh	Dhemaji	13,500	2
Team 4	Dhakuakhana	Lakhimpur	12,800	1
Team 5	Bihpuria	Lakhimpur	11,250	2
Team 6	Mathuri Pathar	Dhemaji	8,600	15
Team 7	Bordoloni	Dhemaji	4,700	3
Team 8	Dakhinpat	Majuli	3,950	2

Good news: every hospital in the region stayed dry and working (33 in total). The problem is the roads and bridges to reach them.

How this was worked out: a radar satellite (Sentinel-1) recorded exactly where the water is, even through monsoon clouds. We combined that with the road map, hospital locations, and village populations to find who is cut off and where to send help first. Full interactive map: the GeoReach dashboard.
